What to do in advance

- Providing information to your child about going to preschool, can be done by reading books (library).
- Tell them you won't be with them for a while.
- For you as a parent we understand that it is also exciting.

That is why in the beginning we will keep you informed with a message and a picture of your child.

Adapting to the new situation

- Every child adapts differently to a new situation. Therefore, we would like to receive information from you about your child. For example, does he/she have a cuddly toy that can be taken to school in the beginning.
- We'll have a conversation with you before your child starts preschool. Your child can come twice for an hour before he/she starts.
- After 6 to 8 weeks we will meet again personally to inform you about the progress.

A child of two and a half years old will learn to..

- Say goodbye to parents.
- Cope with other kids.
- Adjust to a fixed day schedule.
- Discover different materials.
- Look through picture books.
- Distinguish colours, shapes and numbers while playing.
- Develop creativity by drawing, singing and by making things.
- Speak Dutch.

Improving self-reliance

Preschool helps to promote your child's self-reliance by:

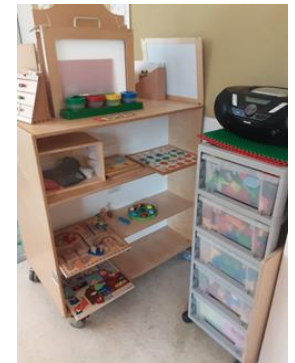

- Washing his/her own hands.
- Learning to put back toys after playing.
- Learning that they will have to await their turn sometimes.
- Putting on a coat by themselves.
